

# Life Stories

Facilitated by Mary Olivia Patiño  
in collaboration with  
Davis-Scott YMCA

A Workshop for  
Men and Women

Your life experience is unique.

Do you want your VOICE and stories to be heard and remembered? Then 'Life Stories', an Adult Education offering, is for you!

Mary Olivia encourages you through creative writing techniques. The six sessions include morning praise, writing activities, attentive listening and sharing. This is a fun way to 'exercise' your mind and your stories! Enjoy your story in print.

We are launching a new program in Adult Education. It is free to participate and we are welcoming men and women over 55. We want this program to be a success for Davis-Scott and to continue throughout the year 2010. The reason for this program is for our senior citizens to eventually write their life story and give it to their families. We are going to publish their stories after every session. This program will be great for our members and the community. If anyone is interested in this program, please sign up at Davis-Scott Family YMCA.
